Issue 493  
Date: August 20, 2009  
Time: Thursday afternoon (5 pm)

I reach out to link with you for this message this day, to draw you forth into the most powerful energy system of your light form, recognising that it very much reconnects in great power with the elements of your physical body form and mind form as it comes to receive and accept the newer impulses given in these transmissions. Come with me now into the receiving area of the spheres of light where we connect in with the Omega transmissions.

“Orem greeting you here Dear One and I lovingly welcome you here and embrace you within the energy systems that you have accepted and you have come forward to move into. Always we see the desire in you to understand more and to receive all knowledge. Understand that knowledge has a particular frequency with it and as you become purified and upraised in your own energy systems then you realise more of the knowledge you have already and your place as you move more into alignment into what is expected to be existing around you and all that you would be desirous of implementing within your life span and within your place and position.

With these words you have had initiated in you the frequency that keys you into opportunities here.

Now we can move you into the communication chamber itself. This vast space here envelopes a multi layer of beings present with you, coming forth from throughout the existence and coming forth not from just your timeline and present reality, but coming forth into the intersecting dimensions here. So, when you expand your awareness and allow the impulses to come forth you will see a representation of many lifestyles. Focus on the intention of all these beings here, some of whom are reflections of yourself, and the intention you will see is to draw into manifestation the greater order, the flows and messages and the life that is upon you, strengthened in the particular reality that you have called forth to be in.

There is the reconnection process occurs with all of the elements of your being when you are open to stand in the portal that allows all this to come to you. The universe itself appears to unfold to allow this to happen and when you step into the memory contained within your energy systems of your powerful presence, you see how you have adapted to the lifestyle imprinted upon you for your present existence and how you have carried forth particular special abilities you had. Some of these are coming into synchronisation now as you expect to follow through the higher pattern and order so created - and you are creators - and you are vessels of the greater creative pulses imprinted within your blueprint. Allow these to come into clarity and focus for you.

Every time you feel you have stopped and you have allowed others to take their place ahead of you, or perhaps you see others who are creating with great energy, recognise these are the times when you need to open yourself and call upon that creative impulse for you and to restore you to the process of creation and in particular the creation that already exists in your blueprint that you need to reconnect to.

Aspects of this blueprint are presented to you in many ways in the flowingness of these transmissions in accordance with what you need to hear at the present moment. This would be serving to align you again to the frequency now presented to you as another portal opens and through this portal you will feel the presence of the Star Elders.'

"Indeed we enable this connection for you now that you have been connected and summoned forth and now can communicate in the sense of the energy processes working throughout you.

We bring to you specific information for you each. You will have been experiencing fluctuations in your energy, very real to you, in times you would feel you need deep sleep, you need to put aside all activity and thoughts to rest in the present moment beyond time. This allows a strengthening and repositioning of your energy processes so that you bring about the presence of those of us working with you expanding your senses and perceptions to go beyond what is happening around you on the earth plane. As you go beyond that, you strengthen the vitality in your systems and you allow the formation and the manifestation around you of an aspect that is necessary to be present in your physical element on Earth. This must come through your light form as you are present with us here and this light form takes on a seemingly different structure as the energy is poured forth into it, and this comes into being for you.

Many of the functions and codes within your energy system and in particular just the flows of energy before they manifest into the dense physical matter, you are creating in that existence the new form that allows you to be present as an entire segment of the Earth is transformed. This is necessary because of the vibrations changing that your Earth system is experiencing and beginning to understand what is moving through the system
